Jump Start Your Team™ features...

Just-in-time and real-time

The *Jump Start™* process is conducted *just-in-time* and *real-time* with your team. We engage your team members in a highly participative, action charged meeting to address the unique needs and challenges of your specific start-up -- not some hypothetical case.

Team leader and sponsor coaching

The roles of Team Leader and Sponsor are difficult and challenging, even for people with previous team experience. We serve as a personal mentor and coach to help the Team Leader and Sponsor understand their roles, work through issues and ensure their success.

We provide personal assessment, feedback, and coaching

Team members receive a personal Myers-Briggs Type Indicator® (MBTI®) personality profile identifying their individual preferences. Cultural preferences are also assessed and discussed. As they explore the strengths and implications of their particular preferences, we use *ongoing feedback processes* and *high-impact coaching* to increase each participant's effectiveness in dealing with others on the team.

We...

- know every team is different. The *Jump Start™* process is tailored to meet your specific needs
- have consistently achieved outstanding business results with this process in multi-cultural environments around the world

Our world-class team

The *Jump Start Your Team™* process is conducted by our team of highly experienced organizational development specialists. They have worked in diverse industries and in all types and sizes of organizations around the world.
